

Construction Management and Erosion Control - Technical and Construction Issues

Silt fenced areas - keep out!

Erosion Netting - 2ply straw

Cover Crops - Annual weeds

- **How to make native plantings work**

Seedbed preparation is huge! Different methods for different scenarios.

Freshly graded soils, old field, cropped?

Wisconsin Local Genotype Seed

Don't use a "Midwestern Wildflower Seed Mix"

Diverse seed mixes will increase success.

Wisconsin Local Genotype Plants

Don't use cultivars or non-native plant material... they will not make it.

Rootstock and plant plugs.

Vegetation Management and Monitoring

Mowing, selective cutting, spot spraying.
